RE: Superfund Update, Summer 1987
Arkwood, Inc., Omaha, Arkansas

Dear Ms. Izraeli and Ms. Greeney:

I have just read, with much concern, your "Superfund Update", Summer 1987, which you mailed to the citizens of Omaha, Arkansas and others.

Many events have occurred since the public meeting you held in Omaha on February 2, 1987, which, if fairly reported in this update, would lessen the concern and anxiety of those citizens. If this is truly an updating report, why not inform the public that the site is not listed on the Superfund NPL. Your technical information does not impart such status to a rural and lay community.

We strongly object to your continued misrepresentation of this site as a Superfund site, and the vindictive manner in which you continue to alarm the people in this area. It may be business as usual for you, but this matter deeply concerns those who live there, not just healthwise, but also economically.

Very truly yours,

By: Bill Doshier
